Syllabus
Weather and Climate Laboratory
METR 1014-015
Fall 2013
Tuesday; 5:30-7:20; SEC P207

Laboratory Instructor:  Branden Katona
E-mail:  btkatona@ou.edu
Office hours:  Tuesday 4:30-5:30 and 7:30-8:30

My job as your Teaching Assistant is to help you understand the presented material, but I can’t help if you don’t ask me questions. If you have a conflict with my scheduled office hours, or a question arises that you would prefer to discuss sooner than them, feel free to e-mail me. I will do my best to respond in a timely manner.

Course Description:
This lab will cover a wide range of topics about weather and climate and serves as a complement to the material covered in the METR 1014 lectures.

Course Goals:  1) To gain an understanding of how material presented is used in real world applications and 2) to gain hands-on experience using some of the methods and techniques used in weather and climate studies.

Course Materials:
Text:  C. Donald Ahrens, Essentials of Meteorology: An Invitation to the Atmosphere, (We will not be directly using the textbook in class, but you will be required to bring it since it is a valuable reference text for your lab assignments)
Weekly Labs:  printed off from D2L website prior to the beginning of class
Other lab Supplies:  colored pencils, calculator

Laboratory Expectations:
Each student is required to do their own lab and turn in a lab report. Discussion of the lab concepts amongst your classmates is encouraged, however I expect you to come up with your own answers to the questions asked. Late lab reports will not be accepted unless there are extenuating circumstances that have been brought to my attention and cleared. If extenuating circumstances arise and have been cleared, the lab must be made up within a week of the missed class period.

Attendance
Attendance in lab session is MANDATORY. I will not take attendance at the beginning of class, but I will know who is there by who turns in their lab. I will not accept a lab turned in by a friend. In order to turn in a lab, you must hand it in yourself.

If you need to miss a lab due to athletic or religious reasons please inform me as soon as possible, but by no later than one week prior to the missed class. It may be possible for you to attend an
alternate lab session, but this first must be cleared with the proper teaching assistant. I understand
that sometimes you will need to miss a lab due to illness or unavoidable circumstances (ex. a family
emergency) and will not be able to provide the required one week notice. Please let me know as
soon as possible before class and other arrangements can be made for you to receive credit for your
lab.

Unexcused absences are not tolerated. If you miss a class and fail to notify me before class begins,
you will receive a zero for the day and will not be allowed the opportunity to make it up at a later
date.

Lab Structure
We will start each lab promptly at the stated starting time. Please make your best effort to arrive on
time, not only because walking in late disrupts the class, but also because you could miss important
class instructions and announcements.

Be sure to come prepared. This means bringing a pencil, eraser, calculator, and sometimes colored
pencils to each class. You must also print out and bring your lab manual to every lab. I will not
accept a loose-leaf sheet of paper with the answers written on it. If you fail to bring your lab manual
to class, I will give you the opportunity to complete the lab for half credit during my office hours.

I will give a brief introduction to each lab before you start on your assignment. This is a good time
to ask questions if you have any. However, I always welcome and encourage questions as you
complete your labs during the class period.

Labs are to be completed in class only. The two hours allotted to class should be sufficient to
complete each lab, so please use your time effectively. Labs are due at the end of each lab period.

DO NOT WORK ON THE LAB EXERCISE BEFORE CLASS!! This will be considered a form of
cheating, and will result in a score of zero on that particular lab.

Make-Up Work
If you have an excused absence and need to make up a lab, you have exactly one week to complete
it without penalty. Otherwise, the grade for the lab will be recorded as a zero. You must meet me
during my office hours to finish any make-up work; however, in extreme circumstances I will allow
you to make an appointment to meet with me in my NWC office. When you come to office hours to
complete a lab, please arrive when they begin. You will most likely require the entire hour to finish
your work, so the earlier you start, the better chance you’ll have of making it through the lab.

Grading

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lab exercises</td>
<td>60%</td>
</tr>
<tr>
<td>Lab quizzes</td>
<td>40%</td>
</tr>
</tbody>
</table>

Your final lab grade will account for 25% of your total grade in the course. The labs will be graded
for the most part on accuracy. You may lose points for sloppy or illegible work, so please be as neat
as possible. At the end of the semester, I will drop your lowest lab percentage grade.

There will be a total of 5 quizzes over lab material throughout the semester. They will be announced
and discussed in class the week before they are given.
Correspondence:
When sending me e-mails, please use your OU e-mail address and put METR 1014: last name in the subject line. I receive many e-mails and this will ensure that yours are read before the others.

Classroom Courtesy:
Cell phones, pagers, and watch alarms should be turned off or put to silent before coming to lab.

Desire2Learn Website:
I will be using Desire2Learn in this lab for posting grades, lab notes, and other important information. You can find this at https://learn.ou.edu. Please check it regularly for announcements.

Accommodation of Students with Disabilities
The University of Oklahoma is committed to providing reasonable accommodation for all students with disabilities. Students with disabilities who require accommodations in this course are requested to speak with the instructor as early in the semester as possible. Students with disabilities must be registered with the Office of Disability Services prior to receiving accommodations in this course. The Office of Disability Services is located in Goddard Health Center, Suite 166. You may contact the office at 405-325-3852 (voice) or 405-325-4173 (TDD).

Academic Misconduct
Cheating will not be tolerated and will be reported. No exceptions, no excuses. Those found cheating will be penalized under the OU Academic Misconduct Code, which can be found at http://www.ou.edu/provost/integrity. In short, if you cheat, expect to be removed from the course and to receive an F for the course.

Fall 2013 Lab Schedule
***This list is not finite and is subject to change***

Week 1: No lab
Week 2: North American Geography
Week 3: Dimensions and Units
Week 4: Vertical Structure of the Atmosphere
Week 5: The Surface Energy Budget
Week 6: Temperature Patterns
Week 7: Saturation & Atmospheric Stability
Week 8: Atmospheric Motion
Week 9: Atmospheric Moisture
Week 10: Advection and Global Circulation
Week 11: Air Masses, Fronts, and Midlatitude Cyclones
Week 12: Surface Map Analysis
Week 13: Thunderstorms and Tornadoes
Week 15: THANKSGIVING BREAK – NO CLASS
Week 16: COMET module Climate Change: fitting the pieces together
