Syllabus
Weather and Climate Laboratory
METR 1014–023
Spring 2010
Wednesday 2:30-4:20pm, CEC 121

Laboratory Instructor: Todd Kluber
Office: SEC 562 and NWC 5325
E-mail: Todd.Kluber@ou.edu
Office hours: Wednesday 4:30-5:30pm in SEC 562 or NWC 5325 by appointment
My job as your Teaching Assistant is to help you understand the presented material. But I can’t
help if you don’t ask me questions. So, please ask questions during lab or stop by my office if you
need something clarified.

Course Description:
This lab will cover a wide range of topics about weather and climate and serves as a complement to
the material covered in the METR 1014 lectures.

Course Goals: 1) To gain an understanding of how material presented is used in real world
applications and 2) to gain hands-on experience using some of the methods and techniques used in
weather and climate studies.

Course Materials:
Text: C. Donald Ahrens, Essentials of Meteorology: An Invitation to the Atmosphere, (You will be
required to bring it since it is a valuable reference text for your lab assignments)
Laboratory Manual: Oklahoma Climatological Survey, Explorations in Meteorology
Other lab Supplies: colored pencils, calculator

Laboratory Expectations:
Each student is required to do their own lab and turn in a lab report. Discussion of the lab concepts
amongst your classmates is encouraged, however I expect you to come up with your own answers to
the questions asked. Late lab reports will not be accepted unless there are extenuating
circumstances that have been brought to my attention and cleared. If extenuating circumstances
arise, and have been cleared, the lab must be made up within a week.

Attendance
Attendance in lab session is MANDATORY. I will not take attendance at the beginning of class,
but I will know who is there by who turns in their lab. I will not accept a lab turned in by a friend.
In order to turn in a lab you yourself must hand it in.

If you need to miss a lab due to athletic or religious reasons please inform me as soon as possible,
but by no later than one week prior to the missed class. It may be possible for you to attend an
alternate lab session, but this first must be cleared with the proper teaching assistant. I understand
that sometimes you will need to miss a lab due to illness or unavoidable circumstances (ex. A death
in the family) and will not be able to provide the required one week notice. Please let me know as
soon as possible and other arrangements can be made for you to receive credit for your lab.
**Lab Structure**
We will start each lab promptly at the stated starting time. Please make your best effort to not come in late as it disrupts the class. Be sure to come prepared. This means bringing a pencil, eraser, calculator, and sometimes colored pencils to each class. I will give a brief introduction to each lab before you start on your assignment, and this is a good time to ask questions if you have any.

Labs are to be completed in class only. The two hours allotted to class should be sufficient to complete each lab, so please use your time effectively. Labs are due at the end of each lab period.

DO NOT WORK ON THE LAB EXERCISE BEFORE CLASS!! This will be considered a form of cheating, and will result in a score of zero on that particular lab.

**Grading**
- Lab exercises 60%
- Lab quizzes 40%

Your final lab grade will account for 25% of your total grade in the course. The labs will be graded for the most part on accuracy. You may lose points for sloppy or illegible work, so please be as neat as possible.

There will be 5 quizzes over lab material throughout the semester, with the lowest quiz grade being dropped.

**Help outside of class:**
I will be available most days at the NWC. If you are unable to come during my office hours in SEC or need additional help, please do not hesitate to contact me at the email address above. Parking is available at the NWC. Also, CART has a route between main campus and the NWC called the "Research Shuttle" or "N42 Gold" route. **In order to enter the building, you will need to show your OU student ID to the security guards at the front desk.**

**Classroom Courtesy:**
Cell phones, pagers, and watch alarms should be turned off or put to silent before coming to lab.

**Desire2Learn Website:**
I will be using Desire2Learn in this lab for posting grades, lab notes, and other important information. You can find this at https://learn.ou.edu. Please check it regularly for announcements.

**Accommodation of Students with Disabilities**
The University of Oklahoma is committed to providing reasonable accommodation for all students with disabilities. Students with disabilities who require accommodations in this course are requested to speak with the instructor as early in the semester as possible. Students with disabilities must be registered with the Office of Disability Services prior to receiving accommodations in this course. The Office of Disability Services is located in Goddard Health Center, Suite 166. You may contact the office at 405-325-3852 (voice) or 405-325-4173 (TDD).

**Academic Misconduct**
Cheating will not be tolerated and will be reported. No exceptions, no excuses. Those found cheating will be penalized under the OU Academic Misconduct Code, which can be found at [http://www.ou.edu/provost/integrity](http://www.ou.edu/provost/integrity). In short, if you cheat, expect to be removed from the course and to receive an F for the course.
### METR 1014 Lab Schedule (subject to change)

#### Spring 2010

<table>

- All lab exercises are weighted equally (though labs will be worth different amounts of points)
- Lowest lab quiz grade is dropped
- Exercises are worth 60% of lab grade; quizzes are worth 40% of lab grade
